## RBGPOE-CON-HP - 48 to 24 V Gigabit PoE Converter

**26,10 EUR**

Item no.: RBGPOE-CON-HP  
shipping weight: 0.20 kg  
Manufacturer: MikroTik

### Product Description

MikroTik 48 to 24V Gigabit PoE Converter RBGPOE-CON-HP

This device lets you use any 48 V PoE source (including passive PoE, Telecom PoE, 802.3af and 802.3at) to power RouterBOARD devices. Simply plug any 48 V PoE powered Ethernet cable into one port, and any 8-30 V capable RouterBOARD device into the other. This device is capable to provide a high power output of up to 24 W (up to 1 A at 24 V). You can power it with virtually any 42-57 V PoE solution available on market today (passive, Telecom, 802.3af and 802.3at PoE plus supported). The device has a rugged metallic design with high-quality components and an integrated heatsink. The case also has mounting holes so you can attach it to a wall. Ethernet shield pins are inside the Ethernet connectors, so that shielded Ethernet can be used, to ground either at the converter itself or at the devices at both ends. Supports 10/100/1000Mbps Ethernet.

Product specifications

- Product code: RBGPOE-CON-HP
- Output voltage: 24 V/1 A
- Operating temperature: -35°C to +70°C
- Input voltage: 42-57 V (passive, Telecom, 802.3af and 802.3at PoE plus supported)
