G2N - Long-Range 802.11n Outdoor WISP AP/CPE

38,75 EUR

Item no.: 323560
shipping weight: 0.90 kg
Manufacturer: ALFA Network

Product Description

Alfa G2N - Long-Range 802.11n Outdoor WISP AP/CPE

The G2N is an 802.11n AP for outdoor installation. It provides a long range and data rates up to 150 Mbps. Features

- 2.4 GHz IEEE 802.11n MIMO
- Data rates up to 150 Mbps
- High power and high sensitivity
- Wide coverage
- Adjustable RF output power
- Supports Gateway, Bridge and WISP mode
- Multiple ESSID
- Passive 12 V PoE
- Standard: IEEE 802.11b/g/n
- Operation mode: Gateway, Bridge, Wireless ISP
- Interface: RJ45 PoE LAN port
- Flash/SDRAM: 2 M/16 M
- Antenna: 14 dBi high-gain antenna
- Wireless modes: AP; Client; WDS; AP+WDS
- Frequency: 2.400~2.483 GHz
- Data rates: 802.11b: 11, 5.5, 2, 1 Mbps; 802.11g: 54, 48, 36, 24, 18, 12, 9 and 6 Mbps; 802.11n (20 MHz): up to 144 Mbps; 802.11n (40 MHz): up to 300 Mbps
- Output power: Up to 30 dBm (at) P 1 dB
- Sensitivity: -96 dBm (at) 802.11b; -91 dBm (at) 802.11g; -91 dBm (at) 802.11n
- Security: 64/128-bit WEP; WPA (TKIP with IEEE 802.1x); WPA2 (AES with IEEE 802.1x); WPA mixed; 802.1x authentication
- Power requirement: 12 V passive PoE
- Dimensions: 230 x 230 x 75 mm
- Mounting: Wall & fixed pole mount
- Material: Plastic UV protected
- Optional accessory: Adjustable pole mount kits
