**Item no.:** 326491
TSX00004 - MKR SD Proto Shield

from **14,50 EUR**

Item no.: 326491
shipping weight: 0.10 kg
Manufacturer: Arduino

📄 Product Description

MKR SD Proto Shield

The Arduino MKR SD Proto Shield allows you to easily connect an SD card to your MKR form factor board. Use it to enhance the IoT features of your MKR1000, as well as store data coming from the web or sensors read by your board!

- Digital I/O pins: 21
- PWM digital I/O pins: Depending on the board
- Analog input pins: 7
- Analog output pins: Depending on the board
- DC current per I/O pin: Depending on the board
- DC current for 3.3 V pin: Depending on the board
- DC current for 5 V pin: Depending on the board
- Length: 61.5 mm
- Width: 25 mm
- Weight: 13 gr.
