shipping weight: 0.10 kg
Manufacturer: Sensative

Product Description

Sensative STRIPS Drip

STRIPS Drip by Sensative is an ultra-thin Z-Wave sensor (3mm), which is designed to detect any leakage of liquids in your home. Besides that the Strip also measures the temperature, light and moisture. With that the sensor can also be used to report potential heat or freezing alarms to your Z-Wave gateway. The Drip can be installed easily and anywhere, where there is a danger of leakage. Typical places are underneath a washing machine or sink. The sensor is connected via Z-Wave to your gateway. The sensor includes a special designed mounting plate, which soaks up even a small amount of liquid. Because of that the sensor immediately informs you about any leakage. The device needs no wiring and has a built in battery with up to 10 years lifetime.

Features:

- Extremely thin sensor strip for water leak detection
- Operating temperature: -20°C to 60°C indoor or outdoor
- Discretely mounting where ever you need
- Fixed installed lithium battery with up to 10 years lifetime
- Wireless technology: Z-Wave Plus
- Article Dimensions (WxHxL): 15 x 6.7 x 195 mm
- Package Dimensions (WxHxL): 94 x 20 x 203 mm
- Article net weight: 0.018 Kg
- Article gross weight: 0.072 Kg
- WEEE
- IP-Rating: IP65
