### Product Description

#### Raspberry Pi 4 LCD Touch Screen Case, Black

This freestanding DesignSpark Raspberry Pi enclosure is designed for the Raspberry Pi 7-inch LCD touch screen and the Raspberry Pi board directly behind it. This versatile Raspberry Pi enclosure is suitable for the Raspberry Pi 2 model B, Raspberry Pi 3 model B, Raspberry Pi model B+. The housing consists of a housing for the RPi LCD touch screen and a housing for the PCB with a removable rear cover that simply snaps into place. The basic housing is made of durable ABS and protects both RPi board and LCD monitor, allowing the unit to be used on the move. Recesses in the Raspberry Pi housing allow quick access to all necessary connectors and USB ports. The case also features a handsome bezel to enhance the appearance of the Raspberry Pi LCD display.

The rear cover provides protection for the Raspberry Pi board and other related components. The cover simply snaps into the molded part of the Raspberry Pi case. Furthermore, the rear cover can be easily removed to access GPIO pins and other internal connections. For wall mounting of the Raspberry Pi package, the rear cover can be removed. This frees up two existing slots for wall mounting.
