Item no.: 331248

WP7607 - MC- mPCIe - LTE Cat.4 Module

from **121,24 EUR**

Item no.: 331248
shipping weight: 0.10 kg
Manufacturer: Sierra Wireless

📄 Product Description

Sierra Wireless MC-WP7607 mPCIe - LTE Cat.4 Module
This LTE Cat.4 embedded module with 3G and 2G fallback delivers up to 150 Mbps download speed and is ideal for IoT applications requiring broadband connectivity such as industrial gateways, transportation, and mission-critical networking applications.

- UMTS bands: B1 (2100), B8 (900)
- MIMO (Multiple-Input Multiple-Output): Yes
- LTE bands: B1 (2100), B3 (1800), B7 (2600), B8 (900), B20 (800DD), B28 (700 APAC)
- GSM/EDGE bands: B8 (900), B3 (1800)
- LTE region: Europe
- Fota firmware updates: Yes
- Form factor: mPCIe
- Technology: LTE - cat 4
- Antenna interface: IPEX MHF/U.FL
- GPS: Yes
- GNSS technology: GPS, GLONASS, BeiDou, Galileo
- Max. DL speed: 150 Mbps
- Max. UL speed: 50 Mbps
- Chipset: Qualcomm
- Supported driver: Linux, Android
- Interface: USB 2.0
- Support voice call: Yes
- Supported GNSS antennas: Passive
- SIM interface: Through miniPCIe connector
- Operating temperature: -40°C – 85°C
- Audio interface: Digital PCM signal input/output (in socket and over USB interface)
- Certification: RoHS, REACH, CE RED
