FGWREU-111 - Flush-Mounted Walli Roller Shutter

from **56,10 EUR**

Item no.: 344341
shipping weight: 0.20 kg
Manufacturer: Fibaro

Product Description

Walli Roller Shutter

The FIBARO Walli Roller Shutter can be used to control motors for roller shutters, awnings, blinds and other AC-powered drives. The small flush-mounted module is combined with an optically appealing switch, which with one click can control all your blinds and react in real time to changing environmental conditions.

The small FIBARO Walli Roller Shutter measures both active power and energy consumption. With its LED ring you are informed about the current energy consumption.

The installation is easy and can be carried out according to your individual wishes. Use the included switch or your own switch series (GIRA System 55, Legrand Celiane, Schneider Odace).
