shipping weight: 1.10 kg

Manufacturer: MikroTik

Product Description

MTP250-53V47-OD - Outdoor 53V 250W AC/DC Power Supply Unit

The MTP250-53V47-OD can output 53 V/250 W, while the MTP250-26V94-OD works with a 26 V/250 W output. Both power supplies come in a sturdy IP67 enclosure with extra protection from dust and moisture.

The voltage will depend on your setup. When using home access points designed for 12-30 V power supplies for example, you could use the MTP250-26V94-OD. If you have a setup demanding higher voltage – like a net of PTZ security cameras, you could use the MTP250-53V47-OD instead. Always check the necessary voltage before powering your devices!

- Product code: MTP250-53V47-OD
- AC powering (max. current): 3.5 A
- AC input & full load: 100-240 V
- DC output: 250 W
- Operating temperature: -40°C to +70°C
- Certifications: CE, FCC, IC, IP67

Included parts

- Fastening set
- Hose clamp
