## 📄 Product Description

DesignSpark Pmod HAT with 3 Digilent Pmod Sockets for Raspberry Pi

The Pmod HAT adapter from DesignSpark is an add-on board which enables you to connect Digilent Pmod modules to your Raspberry Pi board. The adapter is a plug-and-play module, meaning once you have plugged it into your Raspberry Pi computer, you are ready to go. You can add up to 3 Pmod modules at once.

The Pmod HAT adapter has been designed with DesignSpark at RS Components. The DesignSpark community is full of examples of Python libraries and tutorials. Therefore there is plenty of resources to get you started with the Pmod HAT adapter.

- GPIO: 40-pin connector to attach to Raspberry Pi board
- Power: Jack connector
- Pmod connection: Three 2x6 ports for Pmod modules
- Supports: SPI, UART, I2C, and GPIO connections
