

Item no.: 346375

KCP426SS8/8 - 8 GB DDR4 2666 MHz, 1 Modul

from **25,78 EUR**

Item no.: 346375
shipping weight: 0.10 kg
Manufacturer: Kingston

Product Description

DDR4 - 8 GB - SO DIMM 260-PIN - unbuffered

DDR4 brings some improvements in speed and performance compared to previous generations. A fourth generation RAM bar has more pins connecting it to the board to accommodate the higher speed. Each DIMM gets a direct line to the CPU controller to avoid delays or bottlenecks in the data transfer from the CPU to the RAM. DDR4 also contains innovations that reduce power requirements and increase reliability.

- Product type: RAM memory
- Capacity: 8 GB
- Memory type: DDR4 SDRAM - SO DIMM 260-PIN
- Expansion type: Generic
- Data Integrity Check: Non-ECC
- Speed: 2666 MHz (PC4-21300)
- Latency: CL19
- Performance Features: Dual Rank, unbuffered
- Voltage: 1.2 V
- Metal plating: Gold
