3,16 EUR

Item no.: 351672
shipping weight: 0.20 kg
Manufacturer: Teltonika

Product Description

FMB9YX power cable (main connector) with fuse, 1,5 m

The FMB9YX series 150 cm-long main connector power cable with a fuse box is very suitable when external power cables are far from the desired mounting location and the length of the standard device cable (70 cm) is not enough – the 1.5 m-long power cable will help you reach even the furthest corners of a car.

Thanks to the ample length, this cable also allows to mount tracking devices more discreetly. Besides, a fuse provides additional safety and protection for the device power management.

- For use with Teltonika FMB9YX series devices
- Length: 1,5 m
