

Item no.: 353944

EMC braided shielding sleeving with zip heat-resistant 1 m x 50 mm black

from **23,73 EUR**

Item no.: 353944
shipping weight: 0.20 kg
Manufacturer: Delock

Ø 50 mm / 1 m

Product Description

This braided sleeving from Delock is ideal for EMC shielding and bundling of exposed cables or electrical wires.

The braided sleeving has a copper protective sleeve to protect cables and devices from electromagnetic influences. Therefore, this type of braided sleeving is mainly used in network technology, measuring devices or machines.

Thanks to the firm fabric structure (multifilament), the cables are protected from the effects of weather and damage. The braided sleeving is also characterised by its high abrasion resistance and heat resistance.

The zip allows the braided sleeving to be opened and closed several times. The cables and lines can be added or removed several times.

- Length: approx. 1 m
- Bundle diameter: max. 50 mm
- EMC shielding
- Ambient temperature: -50°C ~ 150°C
- Reusable
- Material: Polyester multifilament/copper
- Colour: Black
