📄 Product Description

This patch panel from Delock can be used for installation in a 19? network cabinet. The standardised dimensions make it suitable for simple snap-in mounting of 24 Keystone modules.

The cables can be fixed on the rear of the patch panel to enable clear and orderly cable routing.

The individual ports in the front panel have a dust cover to protect them from dirt when not in use. In addition, the module holder has a small labelling field per port, which can be individually labelled or provided with various symbols.
