📄 Product Description

Velcro cable tie with loop and fixing eye L 190 x W 25 mm black.

The loop can be used to securely fix the cable tie to a cable, for example, so that it cannot get lost. The Velcro fastener allows the cable tie to be quickly attached and easily detached again. The clip attached to the tie ensures strength, stability and secure bundling.

The eyelet allows the cable bundle to be fixed or hung by means of a screw, e.g. on a wall.

The Velcro cable ties are compatible with all types of cables e.g. network cables, USB cables, HDMI cables, charging cables, power cables etc. Whether in the office, at home or on the road, the cables always stay neatly sorted and leave a tidy overall impression. The Velcro cable ties are the perfect solution for keeping things tidy and preventing cable clutter.
