

Item no.: 358411

PCI Express 4.0 x8 card to 2x internal SFF-8654 4i NVMe - Bifurcation - Low Profile

from **81,85 EUR**

Item no.: 358411
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This PCI Express card from Delock expands the PC by two SFF-8654 ports. SSDs with a U.2 connection, for example, can be connected to these ports with the help of optional cables. The card transmits PCI Express signals and uses the NVMe protocol for this purpose.

The card requires the PCIe bifurcation function of the mainboard to split the PCIe signal when several ports are occupied.

Without PCIe bifurcation, only the first SFF-8654 connector of the card can be used.

- Connectors: Internal: 2x 38 pin SFF-8654 4i female, 1x PCI Express x8 V4.0
- Supports NVM Express (NVMe)
- Data transfer rate up to 64 Gbps
- 2x LED indicator
- Bootable, as of UEFI version 2.3.1
- Supports S.M.A.R.T
- Supports TRIM
- Humidity: 15 ~ 90
- Operating temperature: 5°C ~ 50°C
- Storage temperature: -25°C ~ 70°C
