Pro 1PM Multiple switch with measuring function

from **76,30 EUR**

Item no.: 357945
shipping weight: 0.50 kg
Manufacturer: Shelly

Product Description

The Shelly Pro 1PM is a DIN rail mountable multi-switch with measurement function. It can be used with Wi-Fi, LAN and Bluetooth connection. The smart device with precise power management is perfect for home and building automation. The relay is mounted on a DIN rail in your control box. The Shelly Pro 1PM offers advanced safety features and is compatible with most popular home automation platforms.

Shelly Pro 1PM is suitable for controlling and measuring the consumption of lighting, appliances, pool systems, heating and much more. The relay is equipped with temperature, overload and overvoltage protection to enable complete smart automation without additional cables or wiring. Shelly Pro 1PM is perfect for homes, offices, shops, businesses and manufacturing facilities, as well as new construction.

Use your favourite voice assistant to control the Shelly Pro 1PM. Shelly Pro 1PM is compatible with most popular voice assistants such as Amazon Alexa.

You can control the Shelly Pro 1PM directly from the Shelly Cloud App without the need for an additional hub. Manage and control your home or facility, set scenes and schedules, and adjust settings wherever you are - via cloud access or just your local network!
