Product Description

This corrugated plastic conduit from Delock is suitable for bundling exposed cables, electrical cables or wires to protect them from dirt or damage. In combination with the Delock conduit fitting 60455, it provides a secure and firm hold.

The protective conduit is characterised by its high resistance to abrasion, temperature and chemicals. In addition, the conduit has a high flexibility to protect cables from excessive bending.

Thanks to the robust construction and flexibility, protective conduits are often used in installation technology, automation and machine systems.

Note: The conduit is suitable for the Delock conduit fitting 60455.
