Product Description

RWCCARD100 - Network Card for PowerPanel Cloud Service

CyberPower RCCARD100 is an optional management add-on to specific CyberPower UPS series. By inserting the card into the expansion slot on the UPS, users can add the UPS to the PowerPanel® Cloud system, thus enabling remote monitoring and management of the UPS, through a secure web portal or mobile app.

The card is plug-and-play design and features hot-swappable capability, allowing quick and easy installation without interrupting the operation of the UPS. In addition, the card supports user-upgradeable firmware, so users are able to keep the functionality up-to-date with ease.
