

Item no.: 357285

Heat shrink tubing box, with inner adhesive, shrink ratio 4:1, 5 m x 20 mm black

21,42 EUR

Item no.: 357285
shipping weight: 0.40 kg
Manufacturer: Delock

Product Description

This heat shrink tubing from Delock is used to protect and insulate cables, electrical lines or wires. When exposed to heat, the tubing completely encloses the cable and contracts. This protects the cable from the weather and mechanical damage. The adhesive on the inside wall bonds the shrink tubing to the shrink-wrapped wire or cable. The handy dispenser box is ideal for transport and enables clear and tidy storage. The shrink tubing thus remains free from dirt and dust. In addition, easy unrolling and individual cutting is possible.

The shrink tubing can be used in a workshop or in industry, for example.

- Length: approx. 5 m
- Diameter: approx. 20 mm
- Shrinkage rate 4:1
- Shrink temperature: 70 °C ~ 125 °C
- Material: polyolefin
- Colour: black
