Item no.: 350608
shipping weight: 0.30 kg
Manufacturer: 2J

Product Description

5GNR MIMO/Wi-Fi 6E MIMO + GNSS 5-in-1 Antenna "Medusa", 3 m, Screw Mount

This 5-in-1 combination antenna is part of 2J's "Medusa" series and offers superior performance with dual 5GNR MIMO, dual 2.4/5.0/6.0 GHz ISM MIMO and single GPS/GNSS connectivity. This ultra-wide band antenna facilitates communications in MIMO, wireless, and navigation, allowing devices to remain online while moving through different coverage areas. These features make it a leading antenna solution for the next generation of mobile services including high-end public safety, railway, transportation, critical communications, automotive, industrial and consumer automation.

- Technology/antenna frequency: 617-960/1427-2690/3300-5000/5150-5925 MHz, WiFi 6000, GLONASS, GPS 1575.42, WiFi 5000, WiFi/Bluetooth 2400
- Antenna location: Outdoor, external
- Mounting method: Screw
- Connector type: SMA-M, RPSMA-M
- Impedance: 50 Ohm
- Cable length: 300 cm
- Cable specification: LL195, LL100
- Polarization: Linear, RHCP (GPS)
- Radiation pattern: Omnidirectional
- IP class: IP67, IP69
- Operating temperature range: -40°C – 85°C
- Height: 90 mm
- Diameter: 96 mm
