📄 Product Description

faytech's capacitive touch monitors have a modern, sleek look with their flat, bezel-less glass fronts that are IP65 waterproof and dustproof. These units have 10-finger capacitive multi-touch, a glass front that extends to MosH 7, the glass surface is anti-reflective (chemical etching) and a variety of connectors. All monitors have VESA 75 or VESA 100 screw patterns on the back, while the 12.1? to 21.5? monitors come with their own desk stand.

Each unit features an optically bonded touch panel that improves stability, reduces reflection, increases viewing angle and enhances perceived brightness. It also offers resistance to dust particles and generally displays a better image. It is the perfect choice for a variety of applications including industrial automation, control panels and digital signage.

Our touch monitors are the perfect choice for a variety of applications including POS systems, control panels in industrial areas, kiosk systems, office/residential automation, digital signage and in areas such as shopping malls, classrooms, hotels and many more.
