

Item no.: 361797

USB dual docking station for 2x SATA HDD/SSD with clone function and card reader

from **66,93 EUR**

Item no.: 361797
shipping weight: 0.70 kg
Manufacturer: Delock

Product Description

This docking station from Delock is used for the external connection of up to two 2.5" or 3.5" SATA HDDs or SSDs via the USB interface. This solution means that no external housing is required, as the drive is inserted directly into the docking station. Furthermore, the clone function allows data to be copied from one drive to another without using a PC. In addition, the docking station with integrated card reader adds an SD and a Compact Flash slot to a PC or notebook via the USB connection.

Thanks to the complementary USB Type-A socket, no USB socket is lost on your computer, as it can still be used for USB memory or other USB devices.

- Connections: 1x SuperSpeed USB 5 Gbps (USB 3.2 Gen 1) Type-B socket, 2x SATA 6 Gb/s 22 Pin socket, 1x SD Slot, 1x Compact Flash Slot, 1x SuperSpeed USB 5 Gbps (USB 3.2 Gen 1) Type-A socket, 1x DC power socket
