64148 - Converter 2 x SFF-8654 to PCIe x16 bifurcation

from **207,54 EUR**

Item no.: 368391
shipping weight: 0.10 kg
Manufacturer: Delock

Product Description

This converter from Delock can be integrated into the system via the SFF-8654 interface and provides a PCI Express x16 slot. Various PCI Express cards can be connected to the slot.

PCI Express x16 with 8 lanes The converter supports four PCIe lanes per SFF-8654 port and thus offers a maximum of 8 lanes. It is therefore possible to use the converter with only one SFF-8654 port, provided that the respective PCI Express card only requires a maximum of four PCIe lanes.

PCIe bifurcation The converter can be connected to a PCI Express card that has the PCIe bifurcation function to provide eight lanes (x4 + x4) at the PCIe x16 slot. This means that PCI Express cards with bifurcation function can be connected to the PCI Express slot of the converter, e.g. to connect two M.2 or U.2 SSDs.

Specification

- Connectors: 2x SFF-8654 female > 1x SATA 15 pin power connector, 1x PCI Express x16 (8-lane), V4.0, 2x 2 pin 3.3 V power connector for PCIe slot
- Supports NVM Express (NVMe)
- Dimensions (LxWxH): approx. 150 x 40 x 21mm

System requirements

- One free SFF-8654 interface (4-lane)
- Two free SFF-8654 interfaces (4-lane + 4-lane) with bifurcation

Package contents

- Converter 2x SFF-8654 to PCIe x16 bifurcation
- Instruction manual
