### Product Description

This module cover by Delock is used to mount an optionally available keystone holder. Thanks to the simple snap-in mechanism, the cover sits firmly in place and can be replaced easily and without tools if necessary. Utilise the wide variety of Keystone holders. This module cover was designed to accommodate two optionally available Keystone holders. With more than 140 different Keystone modules from our range, the module cover can be configured for almost any application. The matching Keystone holders are available in 6 different colours. This makes it possible to colour-code different areas of application. Easy 45 connects Easy 45 is a variable, modular system that allows components such as sockets, HDMI or USB connections to be combined according to individual requirements. The Easy 45 modules are standardised and can be installed in various module supports or trunking. Easy 45 forms the interface between electrical, network and system installations and numerous peripheral devices, such as TVs, monitors, printers, notebooks and many more.
