E6 LIGHT SENSOR - MINEW E6 - Lable Beacon Light Sensor, BT 5.0, iBeacon

12,22 EUR

Item no.: 323745

shipping weight: 0.10 kg

Manufacturer: MINEW Technologies

Product Description

MINEW E6 - Lable Beacon Light Sensor, BT 5.0, iBeaconThe light sensor beacon E6 is the latest basic IoT sensor device with a light sensor and an anti-dismantlement switch. The hardware is based on the ultra-low power consumption chipset nRF52832 and the firmware is compatible with Bluetooth 5.0 technology.

The light sensor beacon E6 is designed for commercial advertising, indoor location-based service and specialized for asset management and tracking applications.

Features

- MINEW basic IoT firmware
- Includes a light sensor
- Includes an anti-dismantlement switch
- Max. 50 meters transmission range
- Ultra-low power consumption chipset nRF52832
- Small size, ultrasonic assembling technology
- Logo can be printed easily on the casing
- Case Color: Black
- Battery Model: 1x CR2032, 230 mAh, 3 V (not included)
- Operation Voltage: 1.7 - 3.6 V
- Transmission Circuit: 6.5 mA (max.)
- Transmission Range: Max 50 meters
- Light sensor: Photoresistor
- Broadcasting Interval: 10 seconds
- Antenna: 50 ohm, on board, PCB antenna
- Accessories: Double sided adhesive tape
- Net Weight: 6.5 g, with battery
- Size: 42.5 x 23.5 x 5.3 mm
