Product Description

Tube-UNA - 802.11n Outdoor USB CPE + 5 m Cable

Tube-UNA is an IEEE 802.11n 2.4 GHz high-speed 150 Mbps outdoor USB CPE which also compatible with IEEE 802.11b/g. Tube-UNA uses a QUALCOMM Atheros AR9271 chipset which is the best RF performance chipset on the market. Superior Wi-Fi Performance

- Equipped with wide-coverage wireless capability, and years of field-proven experiences, ALFA Tube-UNA provides 2.4 GHz 150 Mbps Wi-Fi data transfer speeds for outstanding performance.

Reliable 802.11n Wireless, Better Range & Coverage

- Tube-UNA comes with the latest 802.11n standards with hardware-based Wi-Fi optimization, plus high-gain antennas, resulting in extra-ordinary signal range.

Increased Bandwidth, More Applications

- Tube-UNA supports max. 150 Mbps 2.4 GHz wireless access, making it ideal for large traffic and lag-free HD video streaming for more devices in your living space.

Increased Wireless Signal Penetration

- With unmatched Wi-Fi signal strength and coverage, Tube-UNA not only has maximum Wi-Fi range, it also helps to penetrate walls and eliminate Wi-Fi dead spots in your living space easily.
