

Item no.: 373775

64187 - USB dual docking station for 2 x SATA HDD / SSD with clone and erase function

from **63,20 EUR**

Item no.: 373775
shipping weight: 0.80 kg
Manufacturer: Delock

Product Description

This docking station by Delock is used for the external connection of up to two 2.5" or 3.5" SATA HDDs or SSDs via the USB interface. This solution eliminates the need for an external enclosure as the drive is inserted directly into the docking station. The clone function allows data to be copied from one drive to another without using a PC. No connection to the computer is required for the erase function either. Either one drive or two drives can be erased simultaneously.
