from **11,55 EUR**

Item no.: 373346  
shipping weight: 0.10 kg  
Manufacturer: Delock

### Product Description

With this security cable from Navilock, various devices such as tablets, smartphones or notebooks etc. can be secured at any location. The 1.8 m long steel cable with a 3-digit combination lock can be easily tied around objects such as a table leg, chair or similar and thus secures the device against theft. Carbon steel The carbon steel cable with protective plastic sheathing is characterised by a particularly high level of cut and theft protection and, at just 86 grams and a length of 1.8 m, offers optimum freedom of movement. 3M Adhesive pad The small steel plate is attached to the device using a 3M adhesive pad and can withstand a tensile strength of approx. 21.5 kgf (kilogram force). This security cable is therefore particularly suitable for securing telephones, tablets or other devices at an exhibition, for example.
