### Product Description

Advanced Mesh with Wi-Fi 6 Equipped with Wi-Fi 6 technology, Deco's whole-home mesh Wi-Fi is designed to provide a huge boost in coverage, speed and overall capacity. Get the latest mesh Wi-Fi to enjoy the future network that loads faster and connects more. Seamless coverage With clearer and stronger signals enhanced by BSS Colour and beamforming, the Deco X20 increases the range of Wi-Fi throughout the home up to 5,800 ft<sup>2</sup> (3-pack). Wireless connectivity and optional Ethernet backhaul work together to connect the Deco units, providing even faster network speeds and truly seamless coverage. Want more coverage? Just add another Deco. True seamless roaming for a better experience TP-Link Mesh means the Deco devices work together to form a unified network. Your phone or tablet automatically connects to the fastest Deco as you move around your home, creating a truly seamless Wi-Fi experience. Designed for more devices Deco products are designed to dramatically improve capacity and efficiency in high-traffic environments. No matter how many screens or devices are switched on at the same time, everyone can enjoy a more efficient network that loads faster without compromising performance. Faster Wi-Fi 6 speed = no waiting The latest 1024-QAM and a higher symbol rate provide speeds of up to 1.8 Gbps - ideal for bandwidth-intensive tasks such as cloud gaming and 4K UHD video. Families enjoy immersive live streaming with flawless video and clear audio without buffering. Significantly reduced lag, more fun Wi-Fi 6 brings stable and responsive Wi-Fi connections to the connected home of tomorrow. Enjoy more responsive gaming and seamless video chats, even when multiple compatible devices are connected and transferring data at the same time. Setup is now much easier Unpack Deco, install the app and then simply follow the on-screen instructions. The Deco app will take care of the rest and get your network up and running in minutes.
