Product Description

The Tapo L530E is a new coloured light bulb from TP-Link. Depending on your mood, you can use practically the entire colour spectrum for lighting. Control from anywhere! With the L530E and the Tapo app, one tap on your smartphone is all it takes to switch everything on. No matter how late you get home, Tapo is always there. Welcome home! Colour Your Life! Imaginative lighting for every scenario. Easily create scenarios for your daily routine or special activities by adjusting brightness, colour temperature (2,500-6,500 K) and colours - with 16,000,000 shades to choose from. Voice control! Works with Amazon Alexa and Google Assistant to keep your hands free. Simply say: "Alexa, switch on the light" or "Hey Google, dim my bedroom light". Schedule & Timer - Manage your life! Create regular schedules and countdowns to switch the light on and off at the brightness you set. Sunrise and sunset modes allow the light to switch on automatically according to your time zone.
