

## Item no.: 383115 88018 - Smartphone docking station 4K with integrated holder - HDMI USB hub

Item no.: 383115 shipping weight: 0.20 kg Manufacturer: Delock

## Product Description

This smartphone docking station by Delock is the ideal addition to your desk or when travelling and turns a smartphone into a fully-fledged desktop system. In addition to 3 Plug & Play capable USB Type-A ports, it also offers an HDMI interface as well as an SD and Micro SD slot for memory cards. A monitor with a maximum resolution of up to 4K 30 Hz can be operated on the HDMI output.Low Power ModeThanks to the Low Power Mode, the docking station draws its power from the phone, but can also be operated with the smartphone power for more power or to reduce the load on the phone.NoteThe docking station is suitable for Android smartphones that have the USB 5 Gbps standard and a USB Type-CT™ connection and support DisplayPort Alternate Mode.
