## SECESRT321-5 - Wall Thermostat with LCD display GEN5

from **68,55 EUR**

Item no.: 327312  
shipping weight: 0.20 kg  
Manufacturer: Secure

### Product Description

#### Secure Wall Thermostat with LCD display GEN5

Control every heating system with an intelligent thermostat - that's no problem with the SRT321 Gen5 of Secure. The SRT321 is a battery operated wall thermostat. Using a big wheel on the device the user can preset the desired target temperature in the room. By verifying the target temperature with the measured real temperature closed to the device the unit decides how to operate a wirelessly attached power switch that is attached to the heater. In parallel a central gateway of Z-Wave control software can set the target temperature using Z-Wave. This enables to realize a time scheduled zone heating. The thermostat itself does not have any internal timers but executes the wireless settings and the local setup.

#### Features:

- Choose temperature with a big wheel
- Control hot water heating, for example underfloor heating
- Display at thermostat
- Temperature range: 5°C till 30°C (41°F - 86°F)
- Power supply: 2x batteries (AAA)
- Wireless technologie: Z-Wave Plus
- Article Dimensions (WxHxL): 88 x 38 x 88 mm
- Package Dimensions (WxHxL): 105 x 91 x 50 mm
- Article net weight: 0.139 Kg
- Article gross weight: 0.204 Kg
- WEEE
- CE
- IP-Rating: IP30
