Product Description

Glass Touch Dimmer

The Touch Dimmer switch is a built-in wall panel with Z-Wave Plus a module. With its stylish design and stable performance, the panel can be used to control the light level. It supports basic command class multi channel command class and multi channel association command class, and also works as a repeater in a Z-Wave network. This product can be included and operated in any Z-Wave network with other Z-Wave certified devices from any other manufacturer.

- Power supply: 85~265 V AC, 50/60 Hz
- Output: 1x 20-200 W
- Z-Wave frequency: 868.42 MHz (EU), 908.42 MHz (US), 921.4 MHz (AU) or other customized frequency
- Suitable for different light sources
- Automatically/manually identifies the type of light source and selects the dimming mode
- Two-wire or three-wire support
- With energy metering function
