V3 Bluetooth & Zigbee

from **197,97 EUR**

Item no.: 358066
shipping weight: 0.50 kg
Manufacturer: Danalock

Product Description

Danalock V3 Bluetooth & Zigbee is a motor lock that is mounted on the inside of the door and controlled by smartphone (in combination with a Z-Wave gateway or directly via Bluetooth). It is suitable for any door with a mechanical Euro profile cylinder.

Easy installation - no drilling required. To install, simply replace the existing cylinder with a Danalock cylinder and screw the motor lock to it.

Battery empty or no smartphone with you? After installation, the door can still be opened or closed from the outside with a physical key. On the inside of the door, the Danalock can be turned manually.

Auto-Lock. Simply let Danalock lock your door behind you. The Auto-Lock function automatically locks the door after a set time.

- Smart door lock as Zigbee & Bluetooth version
- EU frequency: 868.42 MHz (Z-Wave)
- Power supply: 4x CR123
- Battery life: 6-12 months depending on use
- Torque: 1,5 Nm
- Scope of delivery: 1x Danalock V3 incl. batteries (without locking cylinder)
