Item no.: 358079
+Switch slider

from **19,82 EUR**

Item no.: 358079
shipping weight: 0.50 kg
Manufacturer: Sensative

📄 Product Description

The Sensative +Switch is a slider to control IoT devices and scenarios for the Sensative Strips Comfort. With the latest Strips accessories, this allows you to easily add button functionality to your Strips Comfort 700 Z-Wave.
By simply operating the controller, you can control your lights and other IoT devices, but also initiate predefined scenarios in your smart home.

- Switch light on/off
- Initiate a scenario ("Home", "Away")
- Perform an action or service if required
- Easy retrofit for all Strips LoRaWAN sensors and Strips Comfort 700 Z-Wave
- Use Strips as an actuator for your Smart Home
