Item no.: 358027
HEAE4512699 - Z-Wave Gateway, Smart Home Control Unit

from **150,70 EUR**

Item no.: 358027
shipping weight: 0.50 kg
Manufacturer: Heatit

📄 Product Description

The Heatit Z-Wave Gateway is a smart home control unit with a modern design. Heatit Z-Gateway has SmartStart. With this feature, the user can include all devices with SmartStart by scanning the QR codes on the devices. When started, all devices are automatically included in the gateway. This saves the installer a lot of work.

With this gateway you can control all Z-Wave devices in your home via tablet or mobile phone. The gateway is designed for easy setup and operation. With just a few clicks, you can easily add Z-Wave devices and create scenes. The settings are simple, but the possibilities are almost limitless.

Push notifications are supported so you receive notifications from your phone when an event is triggered in the smart home system, even when the phone is in sleep mode. Voice control via Amazon Alexa and Google Home is also supported and you can control the system via voice command. The Heatit Z-Wave gateway offers you countless possibilities to customise your smart home to your specific needs.

This product cannot be used with Heatit Z-Water.

- IoT protocol: Z-Wave - 868.4 MHz (EU)
- Voltage: 230 V 50 Hz
- Max. Installation temperature (°C): 40
- Min. installation temperature (°C): 5
- Protection class (IP): IP20
- Certifications: Z-Wave Plus
- Ambient humidity (RH, non-condensing %): 10-85
- Ambient temperature range during storage (°C): 5-40
- Declarations: CE, CE declaration
- International standard: EMC
- Product height (mm): 96
- Product length (mm): 21
- Product weight (grams): 129
- Product width (mm): 96
- IOT chip type: Z-Wave 500 chip
- Memory (GB): 0.032
- Z-Wave encryption mode: S2 unauthenticated class, S2 authenticated class, S2 unauthenticated class, S0
