Product Description

The official, red and white Raspberry Pi 4 Model B housing. The red and white plastic housing has been specially manufactured for the new Raspberry Pi 4 Model B. It is manufactured in the usual colour combination of white and red and can be easily dismantled and reassembled just like the previous models. No tools or screws are required. The circuit board is held in place in the housing by special catches. All connections such as the miniHDMI, USB Type-C, LAN and the microSD card slot are easily accessible at all times via the precisely fitting openings in the housing. The status LEDs can be seen at all times. Small rubber feet on the underside ensure that the RPi4 stands securely. Details: - plastic housing in the colour combination white with red - easy to assemble and disassemble - no tools or screws required - all openings for Pi4 connections available - rubber feet for secure hold/stand - officially presented by Raspberry Pi Foundation
