Product Description

Maclean MC-796 - VESA monitor/TV holder with shelf, black, 8 kg

The MC-796 is an aesthetic workstation with excellent functionality. A powerful motor adjusts the height of the work surface at the touch of a button. Advanced motion control ensures a smooth and stable adjustment.

The digital control panel remembers 3 heights and its position provides quick and convenient access. Thanks to the double work surface, there is plenty of room for your tasks. Adjust the work surface to your preferred settings.
