Product Description

Maclean MC-802 - Computer Holder, 18 x 24 cm

This versatile holder is a simple solution to integrate a Thin Client or a small PC on a TV rack. The universal, straight shape fits seamlessly into the dimensions of the housing, while the mounting interface is suitable for attachment on a wide range of surfaces: it can be attached to the VESA mounting plate or attached to the profile rail.

The holder is not only intended for Thin Client devices. It is also ideal for small processors, Mac mini and other peripherals. [Features](#)
