Product Description

Adapter for connecting headphones to smartphones, tablets and devices without a 3.5 mm mini jack. Supports microphone and audio playback via the headset. Useful for many new phones that do not have a mini jack socket. Thanks to the digital DAC chip - AC1279 - the adapter supports 99% of the devices on the market (including Samsung devices that other adapters cannot handle). In addition, the adapter has a USB-C socket for connecting a charger (Power Delivery 30W max.) So you can listen to music and charge the battery of your device (smartphone, tablet) at the same time.
