### Product Description

The official, red and white Raspberry Pi 3 case. Securely packaged and cuts a damn fine figure... The stylish plastic case is specially made for the new Raspberry Pi 3. It comes in the colour combination white and red and, like the Raspberry Pi 2 model, is easy to disassemble and assemble. In addition to the cover in the lid, the side cover can also be removed for quick access to the GPIO ports or the display or camera connection. All connections such as HDMI, USB, LAN and the microSD card slot are easily accessible at all times via the precisely fitting openings in the housing, and the status LEDs can be seen at all times. Small rubber feet on the underside ensure that the RPi stands securely. Details: - plastic housing in the colour combination white with red - easy to assemble and disassemble - all openings for Pi3 connections - rubber feet for secure hold/stand - officially presented by Raspberry Pi Foundation
