Product Description

High-quality 11W energy-saving LED light bulb with a socket based on an E27 thread. It is equivalent to a normal 100W light bulb. The high efficiency makes it possible to reduce energy consumption by up to 80%. Our LED light bulbs are the best ecological alternative. The advantage of the light bulb is the use of LED modules that resemble a traditional filament. This makes the bulb resemble the appearance of a classic light bulb and is ideal for use in various types of chandeliers and wall lights.
