📄 Product Description

Raspberry Pi Camera Module 3 Wide NoIRThe new camera module from Raspberry Pi gives you an even better view of things. We are talking about the Raspberry Pi Camera 3 Wide NoIR. With the 12MP camera you get even better images than with its predecessor.- improved infrared sensor (NoIR)- supports HDR (High dynamic range)- has an autofocus- uses the Sony IMX708 image sensor- equipped with a 120° lens (wide angle)How to use your cameraThe Raspberry Pi Camera 3 Wide NoIR is compatible with all CSI-capable boards. Using various libraries, the module can be used to monitor plants or animals, for example. It can also be used for security purposes, coupled with an alarm mechanism for your home. With the wide-angle lens, you have an even wider area that you can see. Thanks to the additional infrared sensor, use at night is no problem.Item contains:- 1 x Raspberry Pi Camera Module 3 Wide NoIR
