### Product Description

Raspberry Pi Camera Module 3 NoIR The new camera module from Raspberry Pi gives you an even better view of things. We are talking about the Raspberry Pi Camera 3 NoIR. With the 12MP camera you get even better images than with its predecessor.- improved infrared sensor (NoIR)- supports HDR (High dynamic range)- has an autofocus- the Sony IMX708 image sensor is installed- equipped with a 76° lens How to use your camera The Raspberry Pi Camera 3 NoIR is compatible with all CSI-capable boards. Using various libraries, the module can be used to monitor plants or animals, for example. It can also be used for security purposes, coupled with an alarm mechanism for your home. Thanks to the infrared sensor, use at night is no problem. Item contains:- 1 x Raspberry Pi Camera Module 3 NoIR
