

## Item no.: 384259 EB7685 - Official Raspberry Pi Zero 2 W Bundle

## from 46,50 EUR

Item no.: 384259 shipping weight: 0.20 kg Manufacturer: Raspberry Pi Foundation

## Product Description

Official Raspberry Pi Zero 2 W BundleBuilding on the success of the current Zero family, the Raspberry Pi Zero 2W is built around a system-in-package developed by Raspberry Pi that utilises the BCM2710A1 chip with 512MB RAM used in the Raspberry Pi 3.0fficial Raspberry Pi Micro USB EU power supply 5.1V , 12.5 WattNow there is also an official power supply in the design of the official USB -C power supplies of the Raspberry Pi Foundation. This power supply is compatible with all Raspberry Pi's that have a Micro USB power connector.Sandisk microSDHC 16GB Class10 with Raspberry Pi OSmicroSD Sandisk 16GB Class10 incl. Raspberry Pi OSThis microSD memory card from Sandsik has a storage capacity of 16 GB\* and was manufactured as a reliable data storage device for audio, video and photo applications. However, they are also ideal as a memory for single-board computers as a hard drive replacement, although they were not actually specifically designed for this purpose. The temperature range for this card is specified between -25°C and 85°C, so that it can be used in almost all climatic conditions. The memory card already contains the image of the Raspberry Pi OS and is pre-installed for an immediate start. Insert the SD card into your SBC (Single Board Computer), start the single board computer system and follow the instructions on the screen.Official Raspberry Pi Zero Case Red / White The official Raspberry Pi Zero and Zero Wireless Case is now available! Specially made and available lids, each for a different function:- Raspberry Pi camera lens holder - lid with extra short 35mm RPi Zero canera cable- GPIO access lid, with GPIO opening - ideal for the hacker / maker!- Closed lid, for those who want a fully enclosed Zero board.More details on official Raspberry Pi Zero red and white case:- Raspberry Pi typical red / white colour combination- 2 part "snap-fit" case, with 3 separate lids (GPIO / camera / closed)- Bottom side with GPIO access- Cut-outs for all connectors- No direct SD card access (keeps the card protected!)
