Product Description

A tried and tested bicycle light set with an economical LED light source. The design of the headlight ensures that the light beam is directed in such a way that other road users are not dazzled. The lights comply with the StVZO standard. Tested and approved for road traffic in Germany. The front light is equipped with a powerful LED light source with a light intensity of 30 lux. It is powered by a built-in 1500 mAh rechargeable battery. The battery can be charged with the supplied USB cable by connecting the light to the USB port of your computer, laptop or mobile phone charger. The rear light is equipped with a powerful 3V 0.5W LED. It is powered by two AAA batteries. Specifications Front light:- Powerful LED with a light intensity of 30 lux- Bracket for mounting on the handlebars of bicycles with a diameter of Ø 25.4 to 31.8 mm- Aluminium housing- 2 lighting modes: 30 lux, 15 lux- Lithium battery 3.7V 1500mAh (non-replaceable)- When the indicator light (red) lights up, the battery must be charged immediately- The charging indicator lights up green during the charging process and goes out as soon as the battery has been successfully charged- Charging time: approx. 4 hours- Check that the battery is charged before every ride- The light has been tested and is road-legal in Germany (StVZO) Rear light:- Powerful 3V 0.5W LED- Power supply: 2x AAA 1.5V batteries- If the battery indicator lights up, this means that the batteries need to be replaced or, if you are using rechargeable batteries, the batteries need to be recharged- Make sure the batteries are charged before starting a new ride.- The light has been tested in Germany and is roadworthy (StVZO)- The light should be firmly attached to the bike frame and the light source should not be covered- No tools required The set includes- Front light with integrated battery- Rear light Rear light- Handlebar mount- Charging cable- User manual- Manufacturer's packaging Features- Front light with built-in 1500mAh battery- Aluminium housing- Quick and easy installation- Includes handlebar mount- 2 lighting modes: 30 lux, 15 lux- StVZO-certified - the lights comply with German road traffic regulations
