## Product Description

The MCE307 torch is an indispensable tool that will prove useful not only in the workshop and for maintenance work, but also on a camping, camping or hiking trip. The torch has been designed to offer maximum performance and functionality when working in a variety of conditions. Super-bright LED torch Thanks to the use of LED COB technology (LED strips), the torch emits much more light compared to conventional torches and is much more economical. The new generation of super-bright COB LEDs with a service life of up to 100.000 hours ensures very long and trouble-free operation. High quality and ease of use The MCE307 torch is equipped with a rotating hanging hook and magnets so that you can easily attach it to a suitable place without having to hold it in your hand. You can also attach the torch to a table or desk using the clip located on the rotating handle. Spacious rechargeable batteries The torch is supplied with 2 rechargeable batteries with a capacity of 1200 mAh. Fully charged, the batteries last for 4-6 hours of operation. The batteries can be easily recharged with the supplied USB charging cable so that the torch is always ready for use.
