## Product Description

Maclean Energy MCE171 Solar LED garden lamp - 2 piecesSolar LED lamps are solar-powered devices that provide inexpensive, reliable, effective and environmentally friendly outdoor lighting. They are ready for use immediately after installation and are virtually maintenance-free in operation.The lamps are equipped with an automatic system that switches the lighting on as soon as darkness falls.They are ideal for the house wall, gazebo or garden shed.The lamp is easy to install. You do not need to lay any cables and can enjoy an elegant and modern light source.The lamp's light source is powered by a rechargeable battery that draws power from an inbuilt solar cell (panel) during the day.It converts sunlight into electrical energy that is stored in the inbuilt battery.After dark, the stored electricity is used to operate the lighting element, the LED.Technical data- Model: MCE171- Set of 2- Light source: LED 0.18W- Material: plastic- Built-in twilight sensor- Fastening with screws and pins- Power supply: Ni-Mh 600mAh 1.2V battery- Operating time: 6-10h- Dimensions: 115 x 90 x 50 mm
