from **6,72 EUR**

Item no.: 382190
shipping weight: 0.40 kg
Manufacturer: Maclean Brackets

Product Description

The MCE423 solar LED house number light is an elegant and functional outdoor light that not only adds character to the exterior of the building, but also makes it easier to identify the flat number. Thanks to solar energy, it is ecological and energy-saving and its durable construction guarantees reliability for many years. It is an ideal solution for lighting and decorating the surroundings of your home. The lamp utilises solar energy stored in a built-in, efficient 600 mAh battery. The LED diode ensures many hours of operation and good visibility of the building number in the dark. Thanks to the built-in twilight sensor, the lamp switches on automatically at dusk and switches off at dawn.

Specification- Manufacturer: Maclean- Model: MCE423- Supply voltage: 2.5V DC, 70mA- Protection class: IP44- Rated power: 1.5W- Luminous flux: 60 lumen- Operating time: 20000 hours- Built-in rechargeable battery: NiMH 1.2 V, 600 mAh (replaceable)- Operating time: >8 hours- Operating temperature range: -20°C to +35°C- Colour temperature: 6000K (cool white)- Dimensions: 19 x 18.5 x 5 cmSet includes- Solar LED house number light Maclean MCE423- 3 sets of digits: 0-9- 1 set of letters: a-f- Instructions for use- Manufacturer's packagingFeatures- LED lamp with twilight sensor- Switches on automatically at dusk and off at dawn- Light colour: cool white (6000K)- Light duration: up to 8 hours- Protection class: IP44- The set contains 3 sheets with numbers from 0 to 9 and one sheet with the letters a to f to stick on
