MCE386 -

from **5,28 EUR**

Item no.: 382090
shipping weight: 0.40 kg
Manufacturer: Maclean Brackets

Product Description

The Maclean MCE386 soldering iron is designed for soldering metallic materials using tin and lead binders for soft soldering. The comfortable ergonomic shape ensures a secure grip. A soldering iron in a traditional housing with a resistance heater that is powered directly from a socket. The simplicity of the design makes the device almost flawless, and with proper care of the soldering iron, it will serve for many years. The power of the heating element is sufficient to properly solder two copper wires, which form the basis of electronics in through-hole assembly technology.

Specifications- high power 60W- 220-240V 50Hz power supply- ergonomic handle- robust blade attachment- low weight- blade can be replaced
Set contains- soldering iron 60W
Maclean MCE386- original packaging
